

PestGard Tunnel Trap MK2 – product specification sheet

Product description:

The PestGard Tunnel Trap MK2 is a double door, live capture cage trap, for humane trapping of animals, pests and predators. This trap is built for professional use in extreme conditions.

Target Species:

- Possums
- Cats
- Ferrets
- Stoats
- Weasels
- Rabbits
- Rats
- Hedgehogs
- Magpies & other birds

Key features:

- Aluminum structure, lighter and more corrosion resistant than steel
- Ideal for coastal conditions
- Powder coated for durability
- Solid centre structure to protect bait
- Directly compatible with ZIP MotorLure
- Compatible with Encounter / Celium nodes – with optional mounting kit.
- Centre treadle trip mechanism
- Drop down doors for quick activation and ease of transfer.
- Flat packed option for ease of transport and storage. (Pre-assembled / fixed options also available)
- Double entry is proven to have higher catch rates than single door traps
- 12 Months Warranty
- Made in New Zealand

Dimensions:

- Cage dimensions: 980mm x 280mm x 280mm
- Overall trap dimensions (not set): 1055mm x 305mm x 360mm
- Weight: 6.5kg

Intended Use:

This trap is designed for live capture of the target species mentioned. Design is suitable for repeat use in most conditions. This trap must be used in a way that is compliant with any laws or bylaws in the area of use.
